

DALI Multi-channel Input and Output Module (20 Channel)

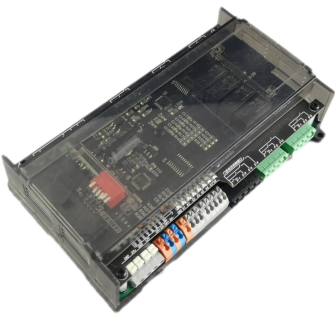

Model No: LR20D8A

Profile

- DALI protocol multi-channel input and output module, with 8 dry contact inputs, 20 relay outputs
- With DALI communication interface, suitable as a room controller
- With a high-current 30A opening and closing relay, used to control the room sockets
- The functions can be configured and monitored by DALI master software.

Features

- Input standard DALI signal, can control motor and other inductive loads
- Magnetic holding relay, no power consumption after closing or disconnecting.
- Input and output logic can be set and configured by DALI master software.
- Quick connection terminal, easy to operate
- Relay anti-surge current 170A or more

Technical Parameters

Model No	LR20D8A
Brand	LAMMIN
Input Signal	8*CH dry contact signal
Input Voltage Range	DC12- 30V
Output Power	19*10A + 1*30A
Software	LAMMIN DALI Master Software
Certification	CE
Working Temp	-20°C~+50°C
Warranty	3 years
Size(L*W*H)MM	180*98*40
Installation	35MM Din Rail

Wiring Diagram and Installations
